To Whom It May Concern:

Together, Team Build LLC (dba FS Group), Isani Consultants LP, and Ardurra Group are performing on-call engineering and architecture on the \$15.5m Project Management Office Design Build Project which is progressing from design to construction this month.

The overall plant development is in three phases, and the team is providing as needed services on the civil, structural, mechanical, and architecture phases of the projects. Design assignments were initiated in 2016 and the project should be completed by 2018. Work scopes assigned the above team to date include: architectural design, BIM, civil works design, SWPPP, and cost estimating for the state of the art project management building.

The project team has worked very well together and has effectively collaborated with our project management team and project owners on each design assignment. We would gladly work with the team again on other on-call assignments.

Please feel free to contact me if you have any questions. I may be reached in my office at 281-233-1877 or by email at mario.diaz@houstontx.gov.

Respectfully,

A handwritten signature in black ink that reads "Mario Diaz".
